No other drink can claim to have the same foothold in society as our favourite beverage beer; it is well and truly the drink of the people. For many having a beer is an everyday occurrence, whether it be to bring people together socially, in celebration at hallmark events, or as a reward at the end of a long day. But despite its commonality, beer remains a drink appreciated by many but not always understood by all.

For some the world of beer goes largely undiscovered and its complexities unnoticed, as does the hard work that went into its making and the history that led to its conception. Undeservedly praise passes it by, not viewed as having the same complexity and depth of the finest whiskey or made with the same craftsmanship of a boutique wine. Perhaps this is its own doing, stemming from its humble 'blue collar' ties deceiving many drinkers to look past its finer qualities. And maybe that's all just part of its charm.
